America: 1812 Before and After (America, Great Crises In Our History Told by its Makers Book 5)

Andrew Jackson, Winfield Scott, Oliver Hazard Perry, Henry Clay, John Quincy Adams, James Madison, Josiah Quincy, Robert Fulton, James Fenimore Cooper, Captain Meriwether Lewis

It would be hard to find anything even in fiction more fascinating than eye-witness accounts of history. Who could describe the events leading up to the American Revolution better than those who participated in declaring independence, fighting the war and writing the rules which govern us.

The fifth volume in this 12 volume series covers the period from 1803 to 1820. It begins with a description of the early Washington city and ends with a number of different views of the Missouri Compromise. In between you will read accounts of the Barbary Pirates, the Hamilton - Burr duel and the exploration of the west. Finally, after a description of early life in the new United States, we explore the growing friction between England and the new United States which lead to the War of 1812 in which the borders between the US and Canada were established.

Introduction To The Series

"After you've heard two eyewitness accounts of an auto accident, you begin to worry about history." This observation, attributed to the comedian Henny Youngman, summarizes the dilemma you face when you want to find out what really happened in the past. When you read a history book, the "facts" are actually the author's own interpretation, often colored by a conscious or unconscious wish to have you share a particular point of view. You're one step (or many steps) removed from the original source material.

That's why the Veterans of Foreign Wars of the United States compiled this 12-volume collection of writings of people who actually witnessed the key events in American history - the actual actors in the events or contemporary observers of them. Past historians have spent decades locating, studying and consulting vast amounts of material such as this. This meticulously chosen selection brings you the essence of history as originally recorded by those who participated in it.

You'll be reading mostly eye-witness accounts, by people contemporary with the events they describe, including many significant historical figures themselves. So you can make your own assessments, draw your own conclusions and gain an understanding of past events undistorted by the prejudices, assumptions and selectivity of professional historians. In some instances where there aren't reliable or easily accessible eye-witness accounts, the compilers have chosen

extracts from objective, authoritative historians of past generations such as Francis Parkman whose judgements have stood the test of time.

The extracts chosen aren't dry as dust: they provide an exciting, highly readable narrative from the living past. They're part of the primary source material on which all historical research is based - and these e-books bring this original, classic reporting to you directly. Through these accounts, your knowledge of American history will be immeasurably greater, your understanding of the key events in the building of the nation immensely increased.

Founded in 1899, the Veterans of Foreign Wars of the United States (VFW) is a nonprofit organization dedicated to foster camaraderie among United States veterans of overseas conflicts, from the Spanish-American War to Iraq and Afghanistan, and to ensure that they receive due respect and entitlements for the sacrifices they and their loved ones have made on behalf of the nation. With this mission, the VFW has a natural desire to encourage a broad understanding and appreciation of American history, and this essential collection of historical documents makes a huge contribution to that aim.

This reissue was scanned, formatted and converted to e-book format by Library4Science.com with the permission and encouragement of the VFW, to make the series more accessible to a wider public. The VFW receives 50% of all royalty revenue from these e-books. This book is about 300 print pages long.
