Asimov Isaac

Bóvedas de acero (Saga de la Fundación 2) (Spanish Edition) Asimov Isaac

Una excelente novela de ciencia ficción por el maestro del género.

En el Enclave Espacial, a las afueras de la Ciudad de Nueva York, un científico de los Mundos Exteriores ha aparecido asesinado. El detective Elijah Baley tiene que ocuparse de este caso en la para él inquietante y odiosa compañía de un robot humanoide: R. Daneel Olivaw.

La investigación es delicada ya que puede terminar con el equilibrio entre los descendientes de la colonización estelar, en perfecta comunión con sus robots, y los habitantes de la Tierra, que, refugiados en grandes metrópolis subterráneas a las que llaman Ciudades, sobreviven precariamente a la falta de recursos naturales y temen a los robots.

Reseña:

«La clásica representación de la ciudad como útero, la metrópoli como madre, que ha quedado fijada en la imaginación desde entonces... *Bóvedas de acero* y *El sol desnudo* son los mejores libros que jamás escribió Asimov.»

The Guardian
