Resiliency in African-American Families (Resiliency in Families Series)

Resiliency in African-American Families (Resiliency in Families Series)

This volume takes an in-depth look at the family resources and coping mechanisms of African Americans. Organized in two sections, the book first examines African American families in a broader context, then moves on to relationships within families. Chapters cover topics such as: growing up and surviving in the inner city; the resilience of families in military and foreign environments, or when faced with a lack of prenatal care, or with single parenthood; healing forces in African American families; and a comparative study of mother-daughter interaction in African American and Asian American families.
