Made for Each Other: The Biology of the Human-Animal Bond Meg Daley Olmert

Nothing turns a baby's head more quickly from nursing or playing than the sight of a dog or any animal.

Made for Each Other lays out both sides of this deep mutual connection and the way it has evolved since prehistoric times. Drawing on the fascinating work of scientists in many fields, from neuroscience to zoology and anthropology, as well as her own investigations, Meg Daley Olmert shows the roots of this age-old bond and its great importance to our well being.
