In **Economic Revitalization: Cases and Strategies for City and Suburb** Fitzgerald and Leigh answer the need for a text that incorporates social justice and sustainability into how we think about and practice economic development. It is one of the first to talk about how revitalization strategies are implemented in both cities and suburbs, particularly inner-ring suburbs that are experiencing decline previously associated only with inner-city neighborhoods. After setting the context with a brief history of economic development practice and its shortcomings, Fitzgerald and Leigh focus on six economic development strategies: sectoral strategies, Brownfield redevelopment, industrial retention, commercial revitalization, industrial and office property reuse, and workforce development.
