The Most Comprehensive Presentation of Transcultural Nursing Concepts

Featuring the Newly Revised Sunrise Enabler!

Leininger's Transcultural Nursing: Concepts, Theories, Research & Practices, Fourth Edition offers theoretical and practical guidance on the provision of client-focused care by integrating cultural values, beliefs, and lifeways into an individualized plan of care. Transcultural nursing is a vital, holistic approach that allows nurses and other healthcare providers to provide culturally congruent care for individuals, families, groups, and organizations within a context that is meaningful, beneficial, and inclusive of their healthcare values, beliefs, practices, traditions, communication styles, diverse roles, dietary preferences, and more. The text presents a global comparative perspective about Western and non-Western cultures and examines the future direction of transcultural nursing with insights into rural and urban cultures in the United States including the culture care of homeless mothers and children. The book chapters cover such topics as transcultural nursing, research, and healthcare in Kenya, Southeast Asia, Haiti, Syria, and Taiwan as well as translational research, globalization, conflict resolution, mental health considerations, Ayurvedic medicine, genetics and genomics in healthcare, integration of care and caring, and an overview of transcultural history, concepts, and principles.

Leininger's Transcultural Nursing: Concepts, Theories, Research, and Practices was edited by two experts in the field and uses Leininger's Theory of Culture Care Diversity and Universality and the Ethnonursing Research Method to provide a useful blend of theory and practical clinical information.
