Men like me because they know I like them and have no big ideological agendas, great causes or ambitions in life. It's all about being easygoing and having fun.

Girl successful at dating

Look for strong but not arrogant men who are living for what they want out of life. Smile, be friendly and say "hi" to strangers you might be interested in.

Instead of trying to win him over, let him win you over because he's supposed to be the hunter. You're supposed to be the alluring, mysterious seductress.

There are two levels of attraction for women:

Primal sexual, romantic attraction based on his look and the romantic image you have about him as a dreamy stud.

Money, status, paternalistic, provider who will do things for you, take care of everything. If you marry for these reasons, it will not be for love so you may get comfort but not sparks.

Then again, most people would rather lead a comfortable plain existence than try for the highs and possibly end up as starving romantic artists.

If you can see a guy for what he is with your head as opposed to your heart (don't be too starry-eyed) and watch how kind and gentle he is over time, that's the true test of how solid and good he is not how dreamy you think he is in your fantasies.

The cavalier looking, adventurous types are usually adventurous in sexual matters too. They don't want just one girl, they want many because they're arrogant enough to think they're swashbuckling enough to get them.

Courtship is the greatest time in life for a woman if she's pretty. She just has to put the signal out that she's available, all the guys will come flocking to her via the sexual power of her budding beauty and she can sit back and scrutinize them all, picking who she wants.

This is how the game works. She's the boss based on her beauty and niceness. The men come to her, do their mating dance (show off) and she has the luxury to pick who she wants provided she's an attractive prize to begin with.

If she has either one or the other, beauty but not niceness, niceness but not beauty, she won't be a total prize. Not all guys will go for her.

If she doesn't have true primal beauty, she will have to settle for what she can get or try to have a damn good personality and be a good cook to compensate which is what men really want in their women, an instantaneous strong attraction to her wholesome nice kind of beauty.

The bottom line is to find someone like you who fulfills a need in you to be loved and nurtured. Love them and they will love you back.

As a woman, you're presumably looking for how human the guy is, how gentle, nice, romantic and unpretentious. There are guys out there like this but they won't give of themselves unless it's to a prize of a girl.

Guys aren't stupid. They know the difference between a phony flake and a gentle soul. If you act like some phony dip in a tampax ad, worth it, go girl, trying to dress like Shania in her so cool videos, all that easy breezy cool stuff who watches soap operas and thinks those female demographic talk shows are hip and cool with all them phony supposedly liberated independent women who've never broken a real sweat in their lives spewing off about trivial pop culture crap as if it was real important stuff then you're a fake manufactured creation of your culture and most men can't stand you except to use you for sex if they think they can.

Some men are just as desperate as women for romance but not all. In the animal kingdom, women choose the men then attract them by flirting whereupon the man takes the cue and proceeds with the ritual. This means that women really are powerful in the courtship dance.

The woman has the power through her flirting abilities to pick who she wants and men really love women who are this magnetic that they lure them in so there it is, the courtship game is, for a large part, in the woman's court.

It's been proven with other primates.
