Where is the authenticity of New York? Perhaps in the eyes of the global passengers, those charming restaurants and taverns, art galleries and old buildings themselves are representatives of the changing development of New York City. The charm of a place does not lie in the fact that everything has not changed, but lies in how to make this authenticity preserved in the evolution of the times. In the book *Naked City: The Death and Life of Authentic Urban Places*, the author observed and analyzed six native areas in New York - Brooklyn, Harlem, East Village, Union Square, Red Hook and Urban Farm involved in the historical process of the urban planning and reconstruction as well as the revival and struggle of the communal neighborhood culture, revealing the new significance of "authenticity" as a cultural power.
