Rise and Fall Of American Family Values E. Carey

Our American Family values have been in a constant decline for many years. This book analyzes the reason for the decline. Author discusses our children and their habits. Are they the cause? No, children will be children, let them be. Next he talks about parents. Are they the problem? You betcha! Parents don't have time to be parents anymore and this is sad. Next we talk about grandparents, they are the best. And, last but not least, we discuss the future and this could be interesting. Our country is in a terrible free fall. This book brings a fresh look at the problems that needs to be corrected soon. Author's 57 years in family and business life sheds a lot of light on the situation. This is a must read.
