Are you often caught up in prickly predicaments with the man in your life and desperately wish you knew how to tackle them? Is the man in your life not paying you enough attention? Are you struggling to land a man who will love and treat you right?

For many women, knowing how to effectively handle the opposite sex can be a real struggle. Not knowing how to respond properly to situations may result in bitter rows with your man that can ultimately lead to a tainted relationship or a break-up.

You may be prompted to turn to your girlfriends for advice. The problem with this is that your girlfriends are often just as confused as you are. Also, your girlfriends may be aware that you're keen on the man in your life right now and want to avoid any chance of hurting your feelings by giving the straight dope. They might be telling you what you want to hear, which may not be the truth or a realistic solution to your dilemma. Sure, the truth can be difficult to accept but deep down, that's what you really need to know.

In this book you'll get the whole truth and nothing but the truth, with a touch of humour along the way. No more guesswork! From a reliable male source (yours truly), you'll be armed with the knowledge of how best to tackle those tricky situations with the opposite sex.
