NBIC National Board Inspection Code 2011 Edition NBIC

An International Standard and a longtime North American National Standard, the National Board Inspection Code (NBIC) is required in the United States and Canadian jurisdictions. The 2011 edition replaces the 2007 edition. The NB of Boilers & Pressure Vessel Inspectors is no longer printing addendums, which can be time consuming for you to insert obsolete pages, and will replace the NBIC ever two-years. This is a great improvement but the cost went up (Ugh!). Today, the National Board Inspection Code 2011 edition will continue to provide the same vital information as in past year editions. The new NBIC consist of the three parts: installation, inspection, and repairs and alterations. Each NBIC is bound. The National Board Inspection Code (NBIC) Parts Part 1 Installations of Boilers & Pressure Vessels Part 2 Inspections of Boilers & Pressure Vessels Part 3 Repairs and Alternations of Boilers & Pressure Vessels The NBIC also known as the National Board of Boilers & Pressure Vessel Code is the premier post construction code book for boilers and pressure vessels worldwide and is constantly improving.
