The Berlin Turnpike: A True Story of Human Trafficking in America - Revised Edition Raymond Bechard

Revised and updated for 2016, including exposed corruption, the death of a newspaper and what the victims Really think of Law Enforcement. This is a true story of human trafficking in America as told through the testimony of a landmark federal trial which took place at the heart of one of the country's wealthiest states, Connecticut, over the course of eight days in 2007. The trial of United States vs. Dennis Paris provides a rare and detailed account of how a specific type of trafficking commercial sexual exploitation is thriving because it has left the street corners and entered our homes. This one case contains every element of a crime so reliant on secrecy; shrouded behind a scintillating veil of growing legitimacy. Yet it is buried just below the surface of our culture's mainstream perception. The myth is that human trafficking of this kind disguises itself as a different monster; an evil face that is easy to recognize. The truth is far more devious and complex. In the shadows of our daily lives, this silent explosion of crime and abuse hides behind a deceptive mask of false innocence and legitimacy. For the first time we will openly examine this heretofore ignored truth with no agenda or motive other than to expose its stark reality. This trip to The Berlin Turnpike will take you to the core of how and where these events take place from the perspective of all those involved: the victims, the police, and the perpetrators. Never before has one story so accurately represented the dangerously magnetic commonalities shared by thousands of roadways, neighborhoods, businesses, publications, private homes, and websites.
