This book is about you. It presents solid evidence that many respectable people have come back to tell us in great detail what it's like after death, and that our smartest scientists agree with them, as do highly reputable psychics and "out-of-body" travelers. Over the past hundred years, they've agreed on two basic themes. One . . . we're more than we think we are. (You exist in many worlds.) Two . . . the world isn't what it seems. This book makes it easy to understand these themes, and to experience for yourself that just knowing them makes you happier, even if you do nothing.
