Looking for ways to lead a simplistic life by causing minimum harm to the environment? **Urban Homesteading is the solution.***

### **What is Urban Homesteading?**

Before people started buying bread and eggs from stores, everyone raised poultry in their backyards and baked bread at their homes. Homesteading is an ancient concept; however, urban homesteading has revived the old techniques of self-sufficiency and adapted them to suit the urban dwellers' needs. Urban homesteading is not a single concept; it is a collection of various techniques and practices. It includes growing vegetables and fruits, raising animals, preserving food, making bread, cheese and yogurt at home, spinning and knitting, making cleaning products, using solar and wind energy, conserving water and making fertilizers and compost. It is the attempt to consume products made at home and create products rather than purchase mass-produced products from stores.
