Oliver Goldsmith

"THE duke of York, [A.D. 1685] who succeeded his brother by the title of king James the second, had been bred a papist by his mother, and was strongly bigotted to his principles. It is the property of that religion almost ever to contract the sphere of the understanding; and until people are in some measure disengaged from its prejudices, it is impossible to lay a just claim to extensive views, or consistency of design. The intellects of this prince were naturally weak; and the education he had received rendered them still more feeble. He therefore conceived the impracticable project of reigning in the arbitrary manner of his predecessor, and of changing the established religion of his country, at a time when his person was hated, and the established religion passionately loved. The people, though they despised the administration of his predecessor, yet loved the king. They were willing to bear with the faults of one, whose whole behaviour was a continued instance of affability; but they were by no means willing to grant the same indulgence to James, as they knew him to be gloomy, proud, bigotted, and cruel.

This is an edition of a classical book first published in the eighteenth century.
