The World Factbook 2013: CIA's 2012 Edition Central Intelligence Agency

The World Factbook, produced annually by the CIA, has become the ultimate authoritative source of information on all the nations of the world. It provides current data for more than 250 countries and territories, from Afghanistan to Zimbabwe. Potomac Books publishes a commercial version of *The World Factbook* in order to extend the limited audience reached by the CIA's own publication. This current Potomac Books edition is identified by the year 2013, following the pattern used in our other annual publications. The CIA completes its volume late each year, and Potomac Books republishes it the following year. Topics addressed include the political climate, natural resources, environment, population, ethnic groups, GDP, agriculture, industries, defense expenditures, literacy rate, religion, legal system, and much more. Key data are grouped under the headings of geography, people, government, economy, communications, transportation, military, and transnational issues. *The World Factbook* also contains maps of each country and of key territories. In addition, readers will find handy appendixes on international organizations and groups, international environmental agreements, and a cross-referenced list of geographic names. *The World Factbook* provides the indispensable reference for curious individuals concerned about a rapidly changing world.
