Accounting, Information Technology, and Business Solutions Anita Hollander, Eric Denna, J. Owen Cherrington

How to make accounting information the enabler of organizational activities and objectives is the crux of this powerful guide. By viewing financial and managerial accounting together as functions of internal reporting (managerial) and external reporting (financial), the authors lay the foundation for thinking more innovatively and effectively about accounting user support, information technology, and solving business problems. This essential work is a must-read for accounting and information professionals.
