Hand Rehabilitation in Occupational Therapy Jane Bear Lehman, Florence S Cromwell

This practical book presents the latest and most effective occupational therapy methods and theories designed for treating patients with decreased hand function. The growing incidence of hand injuries in recent years has challenged occupational therapists to develop innovations in hand care. Now, with this authoritative resource, you can greatly enhance your practice skills and ability to plan effective treatment programs. The contributors provide clear examinations of such topics as wound and scar tissue management, the treatment of Colles fracture, and pre- and post-operative approaches to therapy, among many other pertinent areas.
